

Standard Advert. Language – Racing Harnesses

142 Words:

NecksGen's range of racing harnesses is now available in sizes to fit almost all applications. Utilizing a soft, pliable webbing for added comfort, along with lightweight aluminum upper adjuster buckles on all styles, NecksGen has managed to bring out a line of harnesses that every racer will love. While the only available color is black, nearly every common combination of buckle, width, and connection type is available. Pricing is simply based on the connection style, so if you prefer the tried and true "Latch and Link" style, they sell for \$159.00, and if you prefer the super quick and easy Camlock connection, they sell for \$199.00. Do you prefer to have the lap belts pull upward instead of down into the seat? That's available too! It's all very easy to select your options on the website. To learn more, go to www.necksgen.com
